## Kinetico PREMIER

SERIES™

WATER SOFTENERS

Ensure the highest quality water for your home efficiently, effectively and effortlessly

- Enjoy brilliantly simple, non-electric operation for unparalleled reliability and peace of mind
- Protect water-using appliances, fixtures, plumbing, glassware and clothing from stains and scale buildup
- Save time and money by using less detergents and soaps, yet enjoy a cleaner home
- Say good-bye to brittle hair and dry skin

## **Product Highlights**

**Non-Electric Operation**. Moving water powers these systems, not electricity, so operation is simple and reliable. There are no timers or computers to set, adjust, repair or replace.

**Works on Demand:** Systems meter water use and regenerate based on actual usage. You won't waste water or salt, yet you'll always have clean, soft water whenever you need it.

**AccuDial™ 20 Precision:** Your water professional will accurately adjust the system to your specific water conditions for unparalleled efficiency.

**High Flow Rate:** Systems keep up with the water needs of demanding households and are perfectly suited for larger plumbing in many homes.

**Soft Water, Countercurrent Regeneration:** You'll enjoy the benefits of improved system efficiency and water quality thanks to Kinetico's superior regeneration process.

**Twin Tank System:** One tank is always in service, even during regeneration, for an unlimited supply of clean, soft water.

**Efficient Hardness Removal:** Get the water you want in your home without sacrificing savings and convenience.

Effective Iron Removal: Removes soluble iron\* from water.

\*Depends on type and concentration of iron and other water conditions.

**Efficient Performance:** Uses less water and salt than other systems for remarkable savings.

**Platinum 10 Year Warranty:** Enjoy years of dependability and peace of mind with one of the most comprehensive warranties in the industry.
